

## The Interior Journal.

E. C. WALTON.

A LOUISVILLE preacher in his sermon Sunday said that "Jonah and the whale, Balaam and his ass and Samson's exploits" had caused more skepticism than any three narratives in the Bible, because people take them for literal recitations of things that actually happened, when in reality they are only parables. And thus are our early teachings rudely shattered. Taught to believe the Bible, we were as confident of the truth of all its statements as the good brother, who said he believed the Jonah and the whale story and would have believed it just as implicitly if it had instead told that Jonah swallowed the whale. Our modern preachers are getting too smart.

LOUISVILLE did herself proud in honoring the head of the nation. Gov. Beckham's introduction of the president was well said, concise and pointed. Gen. Castleman made an ideal chief marshal, Col. W. B. Haldeman handled his press committee finely and everything was lovely and the goose honked high, with one exception, Gov. Bradley and Gus Wilson seem to have taken no hand in the glad display. Are they persona non grata or did they go off behind the house and pout?

THE Simpson tunnel, connecting Italy and Switzerland, was used for the first time Sunday. It is 12 miles long, being the longest by odds in the world, and its construction is a marvel of engineering skill. The dangers and obstacles, which seem insurmountable were overcome by science and money and fewer lives were sacrificed than in any similar undertaking. It took many years to complete it, but it will stand for ages as a monument to its makers and promoters.

OF the 147,000 Negroes registered to vote under the old constitution in Virginia, only 21,000 are registered under the new. The latter puts many restrictions on the right of suffrage, one of which is the payment of poll tax. On the other hand 276,000 of the 301,000 whites formerly qualified, have registered. The Old Dominion realizes that this is the white man's country and by the eternal they must rule it.

THE pool rooms are again running wide open in Lexington, the bar rooms never close for Sunday or anything, and crime is generally rampant over there. The only law that seems to be enforced is the anti-expectoration enactment. A man may kill, run pool rooms, gambling houses, etc., and go unmolested, but if he spits on the sidewalk he is a goner until he planks up his "fine and costs."

THE Nevada Legislature took off the lid and left the pot wide open. Every restriction to gambling and liquor on the books was repealed and every thing goes now except prize fighting in that State. The result will be watched with interest, but we suspect it won't be worse there than in this State, where prohibitory restrictions are found only in the statute books.

NEWS comes from New York that since his appointment as collector, the Negro Anderson is making himself very conspicuous and frequently dines with white Republicans at the Fifth Avenue. As the Negro is better than the white man who makes him his social equal, little comment is necessary. The African generally knows his place.

B. J. NEWLON, an old timer, and his son, H. S. Newlon, have bought the Eminence Constitutionalist, thereby insuring the usefulness of that sterling journal, founded by the late W. A. Holland. Mr. Newlon is a Confederate soldier, one of Mosby's men, and is as vigorous with the pen as he once was with the sword.

IT is rumored that Japan will demand an indemnity of \$500,000,000. Considering the amount she has spent in prosecuting the war and lost many thousands of the best and bravest of her soldiers, the sum is small. But where will poor Russia get it from?

THERE'S life in the old party yet. The democrats carried Chicago by a large majority for mayor, and most of the cities in Montana elected democratic officers Tuesday. As Mr. Watterson was wont to say: "Patience and shuffle the cards."

STATISTICS show that there were 9,240 suicides in this country last year. Next thing to killing somebody else the most foolish thing on earth is to kill one's self. A little patience and nature would soon attend to the matter.

AGAIN are we reminded that there are no pockets in a shroud. Mrs. Stanford, of California, who died under mysterious circumstances, couldn't take a cent of her \$7,000,000 with her.

ANDREW CARNEGIE denies that he ever said that "to die rich is to die disgraced." For this assurance, much thanks. We do not want to leave the world disgraced.

A DIVORCED couple in Indiana has just remarried, the woman determining to take the most horrible revenge she could by so doing.

It is stated that I. D. Smith, the South Dakota farmer who has made \$1,500,000 out of the soil alone, has retired from active life. If there are any farmers in this section ready to retire with such a wad, they will please "hands up."

THE question of which is the butt end of a goat is agitating Philadelphia. Will those of our readers who are interested please settle the matter?

### POLITICAL.

The president arrived at San Antonio, Texas, last night at 8:39 o'clock.

A blooded Kentucky horse has arrived at Frederick, Okla., for the use of the president during his hunt next week.

Gov. Mickey, of Nebraska, has signed a bill prohibiting the manufacture and sale of cigarettes and cigarette paper.

The Tennessee House of Representatives made sure of the million dollars donated to Peabody College at Nashville by passing the necessary bill, which had already passed the Senate.

At a meeting of the Republican Committee of the Forty-third legislative district, composed of Casey and Russell counties, held at Liberty Monday, a delegated convention was called to meet at Danville on May 27 to nominate a Republican candidate for Representative.

Judge Edward F. Dunne, Democrat, was elected Mayor of Chicago over John M. Harlan, Republican, by a plurality of nearly 25,000 votes. By the result of the election the city is committed to municipal ownership of public utilities, and the extinguishment at the earliest practicable date of private franchises for such enterprises. The Socialist candidate polled a larger vote than was expected, as there was much in the Democratic platform that was believed to be satisfactory to them.

### Here and There.

In a pistol duel between policemen and deputy sheriffs at Huntington, three were wounded.

The Minneapolis man who sent threatening letters to the President was given a year in prison.

The body of Mrs. Schulz, supposed to have been murdered in St. Louis by Johann Hoch, will be exhumed.

The unknown murderer of an Italian in San Francisco carried away the head, arms and legs of his victim.

Paris police have seized arms and are investigating what is believed to be a conspiracy against the government.

Argument has begun in the Barbour trial at Shepherdsville. Among the witnesses who testified was Mrs. Mary Hagan, widow of the man killed.

At the close of the meeting of the directors of the Equitable Life Assurance Society in New York yesterday a statement was given out that the meeting had been harmonious.

S. C. T. Dodd, chief solicitor of the Standard Oil Company, gave out a statement, in which he declares that the statement that Rockefeller made his money dishonestly "is false, is vile and being made by ministers in the pretended interest of morality, is doubly vile."

It is mainly owing to her fondness for wandering about the kingdom in quiet and informal manner that the youthful Queen of Holland has become so intimately acquainted with her subjects, and gained knowledge which should prove exceedingly useful to her during her reign. Previous to her betrothal to Prince Henry, scarcely a week past but Queen Wilhelmina visited some one of the towns in Holland, just as an ordinary tripper might do; in fact, her independence of the restrictions instituted by Court etiquette often caused Her Majesty's royal mother no small amount of uneasiness. But the youthful Queen—who, it might be mentioned, is particularly strong-willed—generally used to have her own way in such matters, and would drag her mother everywhere she took it into her head to go.

### Rheumatic Pains Quickly Relieved.

## MASTIC MIXED PAINT

Can't Be Touched

for painting houses. The reason's plain. Mastic is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they can't. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil—the most durable kind of paint—and its purity is therefore unquestioned.

As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by PEASLEE & GAULBERT CO., Inc. LOUISVILLE, KENTUCKY and we heartily recommend it to your trade.
